**Mission:** To inspire, educate and empower system affect and homeless youth to achieve academic success through music education, sound engineering and multimedia production. In 2007 Founder Brandon Steppe opens his private converted garage studio up to neighborhood youth who were lacking support and motivation, both personally and academically. Mr. Nell’s topic, “Marijuana in the Workplace in California,” will address the recent adoption of legislation legalizing the recreational use of marijuana. He will summarize the recent changes in both state and federal law as it relates to both medicinal and recreational marijuana usage, as well as discuss the best practices for employers to maintain legal compliance. He recently spoke at the Professionals in Human Resources Association (PIHRA) providing the latest updates to help minimize risk and exposure to employment litigation in 2019.
