

Garden Maintenance June 19, 2021 (Recovery Home)

The Rancho Santa Fe Rotary Club was excited and privileged to serve at [GenerateHope](#) on June 19th, 2021. The club armed with large and small garden tools attacked and replanted vegetable, herb, and succulent gardens for the residents that were BEYOND thankful for all the work that was done. The recovery home is for survivors of sex trafficking in San Diego.

HUGE thanks to the two dozen [Rotary District 5340](#) members, family, and friends that came out to [GenerateHope](#) to perform some much-needed facility repairs and landscaping. There also was great representation from [Coronado Rotary Club](#), [San Diego Rotary Club](#), [Rotary Club of Chula Vista-Eastlake](#), and [Rotary Club of Southeast San Diego](#)! Rotary made a big difference today in the lives of several human trafficking survivors!

The clubs not only transformed their garden area but, painted the outside of the home, organized and cleaned the attic, installed a new patio umbrella for the summer, and beautified the property!

Planter 1 (Against schoolhouse wall): Pollinator Plants. This will add drought-resistant colorful plants to our yard and will attract monarch butterflies to the garden. Suggested plants: Lavender, Milkweed, and African Blue Basil

Planter 2 (Middle planter): Succulent Garden. Move Succulents that are already planted into this planter.

Planter 3 (L-shaped planter): Herb Garden (Culinary Herbs). Keep rosemary. Suggested herbs: Oregano, Bay Leaves, Thyme, Savory, Lemon Verbena, Lemon Balm. Suggested garden plants: Tomato, kale, Swiss Chard, zucchini, cucumbers, bush beans, and marigolds.

Garden of Hope Status 7/8/2021

Our amazing Samantha and Judy visited to see the progress of the Garden of Hope and it looks AMAZING!!! They surveyed the plants that were planted on June 19th to make sure they were thriving and taught a representative of the house how to maintain the garden. They harvested arugula, spinach, radishes and basil for the residents and showed them how to weed and maintain everything. Smaller groups will continue to visit and train the residents with seasonal planting and maintenance.

Garden of Hope Winter Planting September 25, 2021

The Rancho Santa Fe Rotary Club along with other members from District 5340 returned to Generate Hope on September 25th to manage and replant a winter garden for survivors of human trafficking. These members show up for no other reason than to be of help and beautify the garden area and aid the resident in their healing process.

Rotarian at Work Day - April 24, 2021 (Recovery Home)

The Rancho Santa Fe Rotary Club along with friends joined together to serve at [GenerateHope](https://www.generatehope.org/) on April 24th, 2021. The group lined doors with painter's tape, filled cracks with putty, and sanded the cracks prior to painting. This included 1st and 2nd floor hallways, stairwell, and dens. The transformation of flooring and carpeting shortly afterwards has made a huge difference to the residents.

Rehabilitation Projects August 6, 2021

The driveway project was completed. It was a talk and a half for sure, but so needed to ensure vehicles can safely transit to and from the home. Front door, flooring and other projects to be moving forward.
